

Bible Prophecy & Obama Selfies

Last week, Almighty God gave the United States quite a few significant warnings but I was a little under the weather so I could not do a video at that time; however, it got me thinking about God as Our Father. And of course, Jesus told us to address Him as Our Father, however, like any good father, He sometime punishes his children, even his favorites.

And at the Atlanta Braves home opener baseball game, the American flag caught on fire and of course that is an image right out of the book of Revelation when ***'the Whore of Babylon is burned with fire in one hour.'***

This incident also reminds me very much of the Star Spangled Banner because it was fireworks that caught the flag on fire. And of course the sign under the flag says 'The Braves' and that reminds me of America being the 'land of the free and the home of the brave.'

Another very important prophecy about the United States and our President, Barack Obama, is that he is found in Daniel chapter number 7 as the Leopard which comes up out of the sea and it has 4 heads and 4 wings. And our Lord verifies this prophecy many times through the number 44 and that's, of course, because Obama is our 44th President. He was elected also on the 4th of November and his birthday is 8/4.

It's interesting that whenever a major sports team is invited to the White House to celebrate their victory, they usually present him with a

sports jersey and invariably the number is 44. And Obama has received about a dozen of these jerseys; he could start a team of 44's by now. It's interesting sometimes how our Lord popularizes these events by adding an element of controversy. And David Ortiz, the Boston Red Sox star, wanted a selfie with President Obama and the President obliged, however, within a few hours, Samsung used the selfie as an advertisement.

Obama: 'Alright, come on, let's get a good picture here, come on.'
Ortiz: 'Actually, do you mind if I take my own, my own...' Obama: 'Oh, he wants to get a selfie.' Ortiz: 'Yes sir, yes sir.' Obama: 'The Big Papi selfie. Come on.' I would think by now just about everybody in the world is fully aware that 44 is associated with Barack Obama the President of the United States.

And now here's a very recent selfie of Vice President Joe Biden with Barack Obama.

And maybe you remember when Biden and Obama were first running for high office in this country, Biden predicted that Obama would soon be tested after entering office. What the Vice President did not tell us is that Obama would fail the test and he has been failing throughout the Middle East and now in Ukraine and of course that also fulfills Bible Prophecy.

Barack Obama is no ordinary President. He is found in Bible Prophecy in Daniel 7, Daniel 11 and Jeremiah 50. He is destined to lead America to defeat in World War III. So in conclusion, Almighty God Our Father is still warning America but I don't think He will warn us much longer. We have too many crimes on our souls and that is what will destroy us according to Bible Prophecy.
