

Color Codes Mark False Flags

This will be part 4 in my series on that new iPad commercial called "Change is in the Air", and in my last part, I went over some of my theories about the next false flag and I suggested that "MAST BROTHERS" refers to Minneapolis and Saint Paul, the Twin Cities. And I suggested also that Hoover Dam might be the location and February the 11th might be the date; however, some of you disagreed with me and some of you had some very interesting theories of your own.

So, first I would like to read what anonymous subscriber sent to me as an email and he said, *"So far as Hoover Dam is concerned, I agree with you. I think that is unlikely due to exposure but it still could happen. However, what I wanted to write about today is your analysis of "MAST BROTHERS". I believe it is wrong. I do not believe that that it has anything to do with Minneapolis or Saint Paul."*

Okay, let's see you prove your point, Mister anonymous subscriber. And here's what he says: *"The Illuminati are not saying "MAST BROTHERS", they are saying "Masked Brothers." Well, that sounds very interesting. "It sounds virtually identical. They are referring to the Hebdo Massacre. It was supposedly carried out by the Kaouchi brothers who were masked at that time." You may be onto something there. "This is the 'Illuminati laughing at us, rubbing our noses in it' like you said in an earlier video."*

Okay now, Mister anonymous subscriber, you make an excellent point and now here are some verifications from this new iPad video to what you are suggesting.

Quite a few of my subscribers have pointed out that the words on that bumper on the military truck, which opens this iPad commercial are in French, West and North. That supports your theory, anonymous, that this commercial is a prediction of the Charlie Hebdo massacre. Quite a few others have suggested that the numbers suggest latitude and longitude, however, another one of my subscribers has a much more interesting theory.

This is what End Times Matrix News writes: *"This will explain 893354.*

If you look up the number it's a codex for the color shown at the Grammys." This is extremely interesting news, and as you can see, Katy Perry, for example, at the Grammys, wore her purple colored wig when she gave the satanic hand sign.

And if you go to the color code website, as End Times Matrix News suggest, this is the color you get when you type in those numbers, 893354 and as he said, that purple was prominent at the Grammys and also at the Charlie Hebdo massacre.

Not only were the streets and the banners decorated in purple but the news programs also featured the color purple. Even the "Je suis Charlie" signs were very often printed up in the color of purple. Are the Illuminati beginning to color code their false flag events? Was purple the appointed color for the Charlie Hebdo massacre?

And does this support my anonymous subscriber's, claim that this iPad

commercial "Change is in the Air" is also a blueprint for the Charlie Hebdo massacre? And, one more very interesting note. This iPad commercial, the second one, "Change is in the Air", was published on YouTube December the 7th, precisely one month before the massacre in Paris. However, I am not totally backing down from my position. I am beginning to agree with you, Mister anonymous subscriber, that this is a prophecy of the Charlie Hebdo false flag attack but I also believe it predicts another

one coming to the United States and I base that on this backup song by The Orwells called "Who Needs You".

And I want to read the lyrics to this song because they show that it is anti-American and why iPad would choose a song like this to sell iPads ought to wake you people up. This commercial is not about selling iPads. *"You better toss your bullets, you better hide your guns."* Of course that's

against the Second Amendment to the United States Constitution. *"You better help the children, let 'em have some fun,"* by fun they mean breaking the Ten Commandments, *"You better count your blessings, kiss your mom and pa, you better burn the flag cause it ain't against the law. You better pledge allegiance, you're not the only one. Listen up forefathers, I'm not your son."* And of course they are putting down the founding fathers of the United States. *"You better save the country, you better pass the flask, you better join the army, I said no thank you dear old Uncle Sam,"* and of course Uncle Sam as everyone knows is a symbol for the United States.

So, my next question is: Will this proposed false flag event, as described in this iPad commercial, be color-coded like the Charlie Hebdo massacre? And will that color be orange like the orange pumpkin we see smashed on the ground into a target? This sure looks like a bomb falling, if you ask me.

Now as I had been predicting all along, this false flag attack in the United States either has two locations or two aspects to the same event. In addition to the explosive pumpkin falling on the target, there's also this very, what I would call smoky event, and notice that it is also orange.

Now some of my subscribers have said that it might not just be smoky, it could be possibly a gas attack or could be possibly a nuclear fallout and I agree, it could be any of those possibilities. Remember, the name of this commercial is "Change is in the Air". And I'm sure you will remember this scene from the iPad commercial called "Your Verse" of a naked woman giving birth and at the 6 o'clock position we see a little stick figure, whom I call the Antichrist, the little horn of Bible prophecy.

And we see a sun which would indicate an explosion and we see smoke beside the sun and in the clouds, that would indicate two

different events. And we see the same two events in this storm chaser scene from "Your Verse".

We see the GPS type image of weather which would indicate the explosive type event, and we see the clouds, the threatening clouds in the sky which would indicate either the nuclear fallout or the poison gas attack or some kind of smoky event.

And of course, I never like to leave you without a solution to the problem and I'm going to give you Almighty God's solution and that is Mary's Rosary. Mary's Rosary is the weapon Jesus will use to defeat Satan and the Antichrist just as David chose five, smooth pebbles against Goliath. And I want to warn Jonathan Kleck and TheGroxt: You had better get off that sinking ship of attacking Mary and the rosary. Your ministries will go down along with that sinking ship if you don't begin to honor the Blessed Mother of our Lord, Jesus Christ.
