

## Is 8:15 the Next 9/11?

I want to ask the question on this program, 'Is '8:15' the next 9/11?' A couple of days ago I was watching one of 9Nania's interesting videos and she noted that the announcement of the Grand Jury in Ferguson Missouri regarding the case where a white police officer shot and killed a young black man by the name of Michael Brown, that announcement was made at exactly 8:15. And as 9Nania pointed out, that is the exact time that the first atomic bomb was dropped on Hiroshima, Japan and I agree with 9Nania 100 percent: The timing of that announcement was not accidental.

I believe the ruling elite in this country knew full well that that Grand Jury announcement would be inflammatory. I believe they wanted race riots in Ferguson and they knew full well that that time of 8:15 coincided with the dropping of the atomic bomb on Hiroshima.

They timed it exactly so that when the prosecutor, Robert McCulloch walked through that door to make the announcement, he did so at precisely 8:15. Let's take a look at that very interesting clip.

The question is: *'Were the elites giving us a simple comparison of the race riots in Ferguson to the dropping of the atomic bomb on Hiroshima?'* Or *'Were they giving a prophecy of a future destruction of the United States possibly due to race riots?'* And I found this very interesting article, this is from Fox News Insider for November the 25th, and I'll put a link below to the complete article;

<http://insider.foxnews.com/2014/11/25/why-wasnt-national-guard-deployed-ferguson-after-grand-jury-decision>

I'm just going to read excerpts. Here's what the article said: ***'Many asked the following question in the run-up to last night's***

***Ferguson Grand Jury decision: Why did authorities choose to make the announcement at 8pm local time?*** Very good question! In fact, it wasn't 8pm, it turned out to be exactly 8:15pm.

***'As the riots grew worse and worse throughout the night, others noted the lack of National Guard Troops on the streets.'*** Well, not just the lack of National Guard Troops but there was no curfew. I believe the ruling elites wanted destruction and looting and fires. They wanted images of police cars being overturned and burned. They wanted these race riots because it was a prophecy of a future event. In fact, I would not be surprised if there had been professional provocateurs in the crowd instigating those crimes and that brings me up to a previous manifestation of 8:15 in that Cartier Watch commercial.

If you remember, I did a video about that commercial in which you had to run the commercial backwards, you had to watch it in reverse, then you could see the deconstruction of the Leopard and that's what that commercial was all about, just like these Ferguson race riots. It was about the destruction of the Leopard. The elite understand full well, better than Christians, that the Leopard in Bible prophecy symbolizes Barack Obama and the United States.

At the time I made that video about the Cartier Watch commercial I admit it, I did not understand what 8:15 referred to. I am beginning to understand. I believe the elites have a planned attack against either Obama or the United States or both on 8:15. Now, does that mean August 2015? Or could that refer to the hour? Don't forget, the Scarlet Beast burns the Whore of Babylon with fire in one hour. Of course, I

believe that refers to nuclear warfare. This particular 8:15 may be the planning of some kind of false flag event by the Illuminati. And I'm not sure if 8:15 refers to a month and a year or perhaps 8:15 am or pm, in other words, the hour of this planned attack.

They may choose a 9/11 event on 8:15 Christmas Day or New Year's Day. Or they may pick an evil date like December 23rd. As you my subscribers know, 23 is another number for the Antichrist. However, as I have said many, many times on this program, God gives us a number which defeats 666 and that number is 555. That is the number Satan and the elitists are afraid of because that's a number that you and I can employ. We can pray Mary's Rosary, we can pray 8:15 away.
