

An 11-11-11 End Times Event Next Week?

This will be part 3 in my series on Bible Prophecy and I specifically want to look at Sacred Numerology and the number 11 because we are coming up on 11-11 for the year 2014. And I want to mention first of all, that Anne Thyme, whom I have subscribed to, has been putting up recently a lot of very interesting videos about November 10th and November 11th. And I should, by the way, add that I am also very much concerned about November the 9th because that would be the reverse of 11-9. And neither Anne nor I am saying that something definitely will happen on those dates but we all should be very much alert to that possibility.

And I will put the links below to Anne's most recent video and she refers a lot to Maria Divine Mercy. And very recently, Anne saw a vision on the altar of the numbers 11-11 so first of all, I felt we could take a look at what 11 means in 'Biblical Mathematics' and I am going to read from a book by Evangelist Ed. F. Vallowe, or Vallowe, I'm not sure how he pronounces his name.

I often consult this book because he is very interesting. And here's what he says: ***'The number eleven is associated usually with disorder and judgement all through the Bible. Eleven is one more than ten. The number ten represents law and responsibility. A broken law and responsibility always brings judgement and disorder. This number eleven is used twenty-four times in the word of God. There were eleven judgements upon the Egyptians,'*** and he goes ahead and he recites those eleven judgements.

And now I want to relate my own experience with the number 11-11-11 and I've told you this story before but it's worth repeating. I had just purchased a new F150 Ford pick-up. I always like F150's because F stands for Fatima, in my mind, and the 150 stands for the number of Hail Marys in a 15 decade Rosary. And as I was travelling along route 12/28 in New York State (two more biblically significant numbers) I heard a crackling sound coming up from the odometer along with a flash of light and I immediately said to myself: ***'oh my goodness,***

electrical problems with my new pick-up, I don't believe it! Of course, I immediately looked down at the odometer and it read 11,111.1 in other words, 11-11-11, and I knew right away that I did not have any electrical problems with my odometer but rather Almighty God was giving me an End Times message.

Now, as I said, I am not sure if 11-11-11 is significant as far as a date goes. It could refer to November 11th; I remember Jonathan Kleck said Hoover Dam would be blown up on 11-11-2011. But that did not occur; and perhaps the third 11 refers to an hour, and perhaps that will occur this November the 11th.

other words, most bar codes exhibit the number 666, the mark of the beast.

We do know that 11-11-11 is evil as far as bar codes go because the starter numbers, that is the first, middle and last numbers, on a majority of bar codes, is signified by two thin lines and those two thin lines represent the number 6. In

Another expression of 11 is 9/11 because $9+1+1$ equals 11 and that was a warning from Almighty God to the United States primarily. And we have seen confirmations of that lately, for example, with comet Elenin. That comet's perihelion around the sun was on the 10th anniversary of 9/11. The discoverer of that comet, his name was Elenin, short for 11/9.

And on the 11th anniversary of 9/11, there was that amazing fire tornado in Australia where the Prophet Elijah announced: **'I am here'**. The news media overlooked completely the significance of Leonid Elenin's name and also the significance of the voice **'I am here'** in that fire tornado.

However, the number 11 does not always have to be evil in Bible Prophecy especially if you understand that you can break 11 down into a 6 plus a 5 combination where 6 is the number of the Antichrist and 5

is the number of Mary's Rosary. As you know, Jesus will use Mary's Rosary to defeat the Antichrist just as David chose five, smooth pebbles to defeat Goliath, as I have said many times on this program.

And of course, the news media refuses to acknowledge any of these obvious warnings to America. In that fire tornado, Elijah spoke English.

And don't forget that race where the two female finishers ended in a tie, they were both Americans and they both fell down at the finish line and their jersey numbers were 9 and 11 and the media, of course, totally ignored that as another 9/11 warning to America.

And they also overlooked that 555 will defeat 666.

Maybe you remember the lightning strike on the Vatican at exactly 5:55pm on the day that Pope Benedict resigned and his resignation occurred at the 11th hour on February 11th and of course February is the second month of the year and a 2 can be expressed as II in

Latin numerals. Was that a fulfillment of what I had seen on my truck odometer, that is 11-11-11? And I can't be certain because I'm not sure if 11-11-11 refers to a date.

And, in this year's famous World Cup, the most famous sporting event in the world, more famous than the World Series and the Super Bowl put together, that was a prophecy from Almighty God. This time the news media understood the significance, if not the outcome, of Germany playing Argentina for the World Cup because Germany represented Pope Benedict and Argentina represented Pope Francis and who would win. And I said that if Germany wins, it will be God's verification that He is a true Pope and Pope Francis is a false Pope. And I said before hand be sure to look at when the goals are scored and the name and number of the person who scores the winning goal.

Well, the winning goal was scored by Mario Getze and what is that significance? Mario is a masculine form of Mary, Getze means 'image of God' in German and there are 5 letters in Mario and 5 letters in Getze. Again, that is not accidental.

And the most amazing recent event was when that devil moose from Belarus crashed into a bus in Ukraine and the moose represented the Antichrist. He was crushed in his head just as Mary will crush the head of the serpent and the news media recognized the number on the odometer was

666.6 very similar to my odometer experience of 11111.1, however, but they did not understand the significance of the time on the bus clock which read 5:55. So, again, you are not going to understand Bible Prophecy by watching other people on YouTube or by following the news media.

And so, in conclusion, we need to understand that the judgement aspects of the number 11 in Bible Prophecy can be overcome if we realize that 666 can be succeeded by and defeated by 555 just as with the devil moose from Belarus. And we also see that in the hidden verse structures of Zachariah, Ezekiel, all the vision chapters of Daniel and even our Lord's prophecies in the Olivet Discourse of Saint Matthew. And please don't forget to click on the link below and you can watch Anne Thyme's video where she discusses all the possible events that could occur between now and 11-11.
