

Subscriber Alert: Vatican Synod of Bishops

This will be just a brief alert to you, my subscribers, to keep an eye out on this upcoming Synod of the Bishops at the Vatican which Pope Francis has called and it will begin tomorrow on October the 5th. And what I especially want you to be looking for are evil symbols of the One World Religion and we have seen already a lot of these symbols in previous ceremonies of the Catholic Church in the past year and a half since Pope Francis took over the chair of Peter.

And I am sure the images of the One World Religion which you will see at the Synod which will be derived from pagan symbols such as the image of the Egyptian cow goddess, Hathor, which is basically two horns on either side of a circular image, and which represents the sun; the two horns are masculine and the center sun image is feminine.

Or, this new Vatican sign could be derived from the Indian pagan goddess, Kali. Notice here also that the image on her forehead consists of a crescent, or two horns, surrounding, in this case, an oval shape, which is like an eye, the all seeing eye of the Illuminati.

Or we may see this Vatican Synod come up with a new image which is based on the omega sign, the last letter of the Greek alphabet which is really very similar to the two pagan signs we saw, in other words, two horns at the bottom or at the sides surrounding a feminine center oval shape.

And that brings us up to the most recent example of a pagan symbol symbolizing the One World Religion which occurred at the canonizations of Pope John XXIII and Pope John Paul II which Pope Francis presided over. And that evil symbol of the One World Religion was found in this floral display which really dominated Saint Peter's Square as you can see in this photo: it was the focal point. It is upside down in this reprint but you can get the idea that the two horns on either side surround an oval or circular center shape and again, this is a perversion of the Divine Trinity.

They are trying to express God the Father, God the Son, and God the Holy Spirit in sexual or physical terms. The new image, a symbol of the One World Religion, will be a perversion of the True Cross. And that is also what I want you subscribers to be looking for: perversions of the True Cross.

Remember this symbol which the Cardinals wore at the canonization of those 40 Korean martyrs? The cross was depicted as a wavy, weak form superimposed upon by another symbol of the One World Religion, in this case represented by a blue flame and a red flame surrounding an oval in the middle.

And don't forget the chair which the Pope sat on which was another expression of the One World Religion: two male or phallic symbols surrounding a circular form and of course this made the Pope look like a saint with a halo around his head.

I cannot watch all the proceedings that will be broadcast. I don't even have a television; so, I'm urging you to keep an eye out. Look for perverted symbols of the One World Religion based on pagan symbolism and also look for perversions of the True Cross. Maybe you remember the cross which Pope Francis carried at that Lampedusa Ceremony:

this cross was based on the Eastern symbol of the Yin Yang and of course, Pope Francis loves to carry his staff as a walking stick rather than proclaim the crucifix. He never likes to preach '**Christ and Him crucified,**' as Saint Paul said.

However, as usual, I do not want to leave you orphans. I want to show you a true symbol, an image created by Almighty God himself and that is Our Lady of Guadalupe. Mary is going to crush those evil horns as prophesied way back in Genesis 3:15. She is going to blot out the sun of the Egyptian goddess, Hathor. Please don't forget, yes, Jesus will defeat the Antichrist, but he will use Mary's Rosary as His weapon of choice, just as David chose five, smooth pebbles to defeat Goliath.
