

SIGNS OF THE LEOPARD AT OBAMA'S INAUGURATION

On this program I want to talk about the inauguration of President Barack Obama and how this inauguration fulfills the prophecies of Daniel in his chapter number 7. In chapter number 7 Daniel sees a great leopard coming up out of the sea. This leopard symbolizes both the United States and President Barack Obama in these End Times.

During Obama's inauguration you will see many of the four characteristics of the leopard. The skin color is both black and white and you will see a great deal of integration of the races during this inauguration and during Obama's presidency. The number 4 will be very significant also. You will see all 4 branches of the government well represented at the inauguration: the House, the Senate, Supreme Court and of course the President. And the 4 branches of the military: the Army, Navy, Air Force and Marines will also be much in evidence.

The 4 branches of the military are symbolized by the 4 wings on the leopard in Daniel, and the 4 branches of government are symbolized by the 4 heads on a leopard in Daniel. And the last characteristic of the leopard, that is dominion, is of course what Obama's inauguration is all about. When we see Obama installed as the leader of the free world, he is fulfilling Daniel's prophecy to perfection as we see the Bible come true before our very eyes.

Note also the many 4's during the inauguration itself. There will be 4 pre-inaugural balls. There will be 4 musical interludes including a quartet. Obama's wife will be much in evidence as will Joe Biden and his wife. That's because the two couples also indicate the biracial makeup of America and of course the number 4. If you read Daniel chapter number 7, you will see that this prophecy about the leopard and Barack Obama had to be fulfilled before the Great last New World Order could take over the planet.

Barack Obama's destiny as the leopard will be to lead America to defeat in World War III as described in Daniel chapter number 8 and also number 11. And don't forget, Barack Obama is our 44th President. As you watch the inauguration, please make note of the many times that the 4 signs of the leopard will be an evidence before your very eyes. Bible Prophecy is being fulfilled this week.
