Ariel & Arias: Warnings to Aries the Ram (America)

For the past several days, there have been horrible and sometimes sordid stories in the American news media. First, we had that limousine that caught fire on the San Mateo Bridge killing five young women in a bridal party and of course, that was a warning to America and a specific prophesy of the coming Rapture.

And since then, we have had the horrible stories of Jodi Arias who was convicted of killing her boyfriend in a most gruesome manner. And we also had the story of Ariel Castro who kidnapped those three young women in Cleveland and held them hostage for 10 years. These are unbelievably horrible warnings to America, and yes, they are warnings especially about the sexual depravity coming upon this nation.

And of course, it was prophesied by Jesus that the End Times would be as in the days of Sodom and as in the days of Noah. And, one of my subscribers, 50it'stime, pointed out to me another very amazing significance and that is the names of Arias, as in Jodi Arias, and Ariel as in Ariel Castro, point to Aries the ram and Aries the ram is of course, an important constellation and Aries in Latin means the 'ram' and why is that important? Because the Ram in Daniel, chapter number 8, signifies primarily the United States of America and the Ram is crushed by the Goat and the Goat symbolizes Communism.

Those two people, who have been finally brought to justice, predict the coming justice coming to America by the hand of God. Therefore, we have seen 3 very important warnings to America just this week. It's hard for me to believe that God is giving so many chances to the United States. He must really love this country but will Americans wake up? Will we realize that we have very little time left? The United States is the Whore of Babylon in Revelation. We are the Ram in Daniel chapter number 8, and our fate is that of destruction. Our President, Barack Obama, is the Leopard in Daniel and all of these prophecies in the Bible are coming true before our very eyes.
