

## Cooper and Colbert are Clueless!

As you may or may not know, two television personalities, Anderson Cooper and Stephen Colbert have been going back and forth, trying to outdo each other, as to who can make the most fun of me, and my videos on YouTube, especially my video, my very short video, about phallic symbols at the Denver International Airport. Now I have posted more than 200 videos on YouTube, and most of them had to do with Bible prophecy, but they zeroed in on this one very short video, I guess because they can get a lot of adolescent humour out of it, and I admit, both guys are pretty funny. And I don't mind them making fun of me, because at least Anderson Cooper let me respond. I am a little upset at Stephen Colbert, because his company Viacom, blocked my response. Evidently he can dish it out, but he can't take it.

Neither Anderson Cooper nor Stephen Colbert however, understand the true significance of the artwork at the Denver International Airport. This mural for example describes the birth and conception of the Antichrist. It describes World War 3. It describes the fall of America and Barack Obama. These are very serious topics. The phallic symbol in this painting is a very minor part of the message, which the artist is trying to convey to us. Let's take a closer look at this particular piece.

Now in the background here, we see a giant flame burning this forest, and also this city. I believe this indicates World War 3. Here we see a dead or sacrificed leopard. Now the artist is probably making an environmental statement, but this also has biblical significance. And in the foreground, we see three women in caskets.

This in itself is a very gruesome image for an airport, but it has significance beyond what the artist publicly proclaims. He says he is decrying man's inhumanity to man, but that does not explain this pseudo halo around this Indian woman's head, nor the pseudo halo around the doll, which she is holding. I believe this is a perversion of the Nativity of the Christ Child. I believe this indicates the birth of the Antichrist. That's why this woman, who was a stand-in for Mary is dead. That's why this child is a doll.

If you understand the Book of Daniel, you know that the leopard comes just before the Antichrist, and this image here is of a sacrificed leopard. If you count the number of figures in this picture, there are ten of them, and as you know, there are ten kings from which the Antichrist arises, and he kills three of them.

In addition to the three dead women, which symbolize the three kings who the Antichrist brings down, there are seven other individuals, 1, 2, 3, 4, 5, 6, plus this figure here of a naked woman. And that leads us to the sexual symbolism that Cooper and Colbert make such a big deal about. Now the private parts on the body of this naked woman are formed by a bird form, and the private part on this penguin, which is a male appendage is formed by this sign. The name of this bird includes the Latin term "impennis".

That is not accidental. The artist chose this bird on purpose. This is also an indication of bestiality; a bird and a human. Now this is right out of the Bible. God destroyed the world the first time with a great flood, because human beings were having intercourse with demons. Today we would call that succubus or Incubus, and God destroyed them because only Noah was perfect in his generations.

And Jesus said that in the End Times it would be the same as in the days of Noah. And that is what this mural is talking about. This penguin or Great Auk was a flightless bird. That symbolizes a demon. A demon that has been cast to earth and can no longer fly to heaven. This mural is talking about the birth of the Antichrist, and also the conception of the Antichrist.

As I said this mural is a prophecy of World War 3, the birth of the Antichrist and the conception of the Antichrist, but it is also a depiction of the sacrifice of the leopard, which symbolizes the United States and Barack Obama, and this will be accomplished by the Soviet Union. And this little girl back here, is holding a map of Russia. Let's take a closer look.

The reason I am showing you a close-up of this Mayan tablet, is because people questioned before, whether this was actually a map of the Soviet Union, so I am comparing it to this map which shows the Soviet Union as it was constituted at the time Leo

Tanguma created this mural. Now they are not exactly the same. But let's put it this way, this is certainly not any other country of the world. If it is a country, it is definitely the Soviet Union.

Three years ago, I predicted that Barack Obama would be elected president of the United States, because I understood Bible prophecy. He is the leopard, as found in Daniel chapter 7 verse number 6. I also understand that although a lot of Americans have hopes that he will be defeated by a Republican, this will not happen. According to Daniel, the leopard is followed by the fourth beast, and the fourth beast is the Antichrist, and that is what this mural at DIA is all about.

Anderson Cooper and Stephen Colbert cannot handle this type of information, but I feel obliged to let you know about it. Maybe one day they will wake up, I hope not before it is too late
