

Eagle is Upside Down on White House Twitter Page

This will be just another very brief video. As you know, Almighty God has given America many, many warnings about our imminent demise. And, just recently, even the White House is telling us very subtly about the fall of America and I want to thank 'Pastor Dave' for bringing this to my attention, as well as one of my subscribers, Brentley Smithers and that is, on the White House Twitter page the American eagle is shown upside-down. Let's take a look.

It's really amazing, but this official whitehouse.gov Twitter page shows the American eagle upside-down. Let's take a closer look: there can be no mistake this eagle on the White House Twitter page is upside-down. And, you can tell this is not a mistake: this is deliberate because the lettering above the eagle is correct and is right side up, 'United States of America'. It's fairly faint but I think if you look carefully you can see it is right side up. This is planned and deliberate. This upside-down eagle is a sign of distress! An upside-down emblem is an international symbol for distress and America is in deep, deep trouble! Our prayers are needed for the United States very critically at this time!
