

Mary's Sign Will Crush Vatican's Sign

This will be a follow up to my program about a very evil symbol which appeared at the Vatican during the canonizations of Pope John XXIII and Pope John Paul II. As you can see, it was a huge floral display and it dominated the entire Saint Peter's Square, and as I previously explained, it is actually a sexualisation of the Divine Trinity. It has an overall female oval shape with two male horns at the bottom; but several of my subscribers told me that this is a very specific demonic image: it is an image of the Egyptian cow goddess, Hathor.

This evil symbol of Hathor was often expressed as a headdress or a crown because it symbolized the subjection of the human being to the demonic. And it consists of two horns of the cow goddess and in the center was a sun disk representing the sun god, Horus, who was in fact Lucifer. And we see this sign very often in Egyptian paintings and in Egyptian sculptures, and it is a very favorite symbol today for the Illuminati because it is very powerful.

In fact, a lot of people believe that this golden calf, which the Israelites worshipped when Moses went up on the mountain to receive the Ten

Commandments from Almighty God, was in fact this Egyptian cow goddess, Hathor.

And I want to thank the Childrens Gospel.com for this image, and if you look at this closely you can see there is a very close similarity to that satanic image which appeared at the Vatican during the canonization ceremonies. Thus, I think it's pretty obvious that this flower display at the canonization of the two popes was derived from this symbol for the Egyptian cow goddess, Hathor, and the golden calf which the Israelites worshipped. This is actually a very sophisticated version of the symbol for Hathor, the Egyptian pagan goddess, and I say sophisticated because there are six divisions on the right, six on the left, and six overall which yields the number for the Antichrist.

Now, whoever convinced the Vatican to use this, I'm sure they knew what they were doing. They tried to dress it up in flowers to make it seem sweet and attractive but in fact, this evil symbol during the canonization of the two popes, pays homage to Satan, and we need to find out, is there a way to combat this evil symbol? I'm sure you are well aware by now of how the Illuminati love to use pagan Egyptian symbols, especially more so than, let's say, Roman or Greek pagan symbols in their music videos on YouTube, in their halftime sports programs, on television, and in the movies; and the reason is because Satan prefers those images.

They are much more powerful, and of course, the Illuminati want to pay homage to Satan, just like the taken over Vatican, in order to ensure success for their endeavours, and of course, the problem is it leads the young people in our society astray.

What is the solution? What is the answer to these evil signs? Is there a great sign that God has given us that will defeat these evil signs? In the book of Revelation, Saint John writes in his chapter 12 that the great sign is ***'the woman clothed with the sun, with the moon under her feet and on her head a crown of twelve stars,'*** and the

very best representation of that great sign is this miraculous image of Our Lady of Guadalupe as given to St. Juan Diego in Mexico. This is the sign that will defeat all those evil Egyptian and pagan symbols.

So, how do we know this great sign of Mary, as Our Lady of Guadalupe, is the sign that will crush the cow goddess of Egypt, Hathor? Please notice that Mary is clothed with the sun. What that means is that she blocks that sun part of the image, she blocks the evil deity Horus. And please note that she is standing on top of the two horns, she is crushing them just as she will crush the serpent as prophesied way back in Genesis 3:15. In other words, God does not leave us orphans; He gives us the solution. The solution to 666 in Scripture is 555 which is Mary's Rosary and the solution to the evil demonic signs that we see on television, at halftime shows, music videos and even at the Vatican, is the great sign of heaven and that is particularly, Our Lady of Guadalupe.
