

YOUTUBER: HELICOPTER CRASH WAS A SATANIC 153 ATTACK

As you know, a few days ago I posted a video on the near crash in an airplane in Raleigh, North Carolina. Like so many others this year, this plane had 153 passengers on board. Satan has been attacking the number 153 all this year because 153 is the number of Hail Marys in a complete 3 Mystery Rosary.

Yesterday, a YouTuber who goes by the user handle of "terrantorned" commented on this video and he pointed out to me that the horrific helicopter small plane crash over the Hudson River two days ago was also a 153 plane crash. I had not noticed this before. He said that the local news media reported that there was 1 pilot on the helicopter, 5 passengers on the helicopter and 3 people on the airplane, yet again another 153 number.

He also pointed out to me the amazing coincidence, if you can call them coincidences, that the US Air flight that went down over the Hudson back in February in which everyone was saved contained also 153 passengers along with the pilot and the co-pilot. This means there have been a total of at least six incidences involving airplanes and the number 153 just this year.

You may think this is just a coincidence but the odds against this happening are at least a trillion to one. Satan is attacking Mary's Rosary and the number 153 because he knows that his end is short. He knows that it is prophesied way back in Genesis 3:15 that "Mary and her seed will crush the head of the serpent."

Of course I realize that most of you in my audience are not Catholic. In the book of Revelation, Saint John refers to the Raptured Protestants as prophets. That's because Protestants are much more interested in End Times prophecy than Catholics are. Saint John refers to the protected Catholics as saints and certainly Catholics are much more interested in saints and tradition than Protestants. Saint John saw this division within Christianity two thousand years ago but I'm here to tell you today that we must not let the Blessed Virgin Mary be a source of division between Christians.

Even Martin Luther had a tremendous respect for Mary. You need to understand that the Rosary is not just a Catholic prayer. If we are going to defeat Satan in these End Times and maybe even hold off World War III, the solution is Mary's Rosary. Satan is attacking these

airplanes because the number 153 is associated with them. As I said, 153 is the number of Hail Marys in a complete Rosary. It is also the number of fish which Peter caught in the miraculous draft of fishes. It is a biblical number.

I would hope by now that everyone should realize that an enemy of Satan is your friend. Satan hates the Blessed Virgin Mary. I don't know how many more incidents we are going to have with plane crashes with 153 people onboard but I am beginning to advise people not to take any flights. Even the helicopter small plane collision was a 153 incident. And I specifically want to thank "terrantorned" for pointing that out to me.

In conclusion, the way to fight Satan is to fight back with a weapon he hates the most. I have pointed out many times on this program that when David defeated Goliath he used five smooth pebbles. Those five smooth pebbles signify the Rosary in the End Times. In the book of Esther, when Haman is hanged, they use a fifty cubit length rope. Esther prefigures the Blessed Virgin Mary, Haman prefigures the Antichrist. If we are to prevent anymore of these tragic plane crashes we must take up our weapon against Satan and that is Mary's Rosary.
