

Evil Birds Attack Pope's Peace Doves

A lot of my subscribers have been asking me about the prophetic significance of those two doves which were released by Pope Francis at the Vatican over the weekend, but which were immediately attacked by a seagull and a large crow. Does this simply mean that peace is about to be taken from the earth, and there's no doubt that is part of the prophecy.

However, I believe there is also a deeper significance, and if this prophecy is from the Holy Spirit, we will find there will be three attributes. First of all, there will be numerology involved; second, the symbolism will take precedence over any literal interpretation, and third, you will need a Co-Prophet to explain the prophecy. And it's very possible that here on YouTube the prophecy has already been explained since I've never said I was the only Co-Prophet of the End Times. But, as you know the Gospel story was told by four different people, Matthew, Mark, Luke and John, so it won't hurt if I perform duplicate service and explain this prophecy for you once again.

First, let's look at the numerology involved: there were 4 birds, and of course 4 is the most important number in end times Bible prophecy. And there are many, many examples but I will just give you one: the 'Four Horsemen of the Apocalypse'. I believe these 4 birds symbolize the 4 most important individuals of the End Times, and that would be the two prophets, Enoch and Elijah, that's who the two white doves symbolize; and the two evil individuals of the End Times, the Antichrist and the False Prophet. The seagull would indicate the Antichrist because the Antichrist is the Beast from the sea in the book of Revelation, and the dark, colored crow would symbolize the False Prophet who is the Beast from the earth.

Now, regarding the symbolism of this event, in Scripture the two witnesses, Enoch and Elijah, are killed by the Beast from the abyss, that is the One- World government; however, the two most important individuals of the Beast from the abyss are the False Prophet and the Antichrist, so the symbolism here would hold true, the two white doves symbolizing Enoch and Elijah, were attacked by the two birds of prey, the seagull which symbolized the Antichrist, and the black, large crow which symbolized the False Prophet.

Now, some people on YouTube are saying that Pope Francis was responsible for this incident, but a lot of that is just Anti-Catholic bigotry, which is all over the internet. Yes, I admit, you could say, Pope Francis put these two innocent doves symbolizing Enoch and Elijah in harm's way. But on the other hand, you could say that the prophecy from the Holy Spirit came through Pope Francis, and there are several Holy Spirit Trinities involved in this event: for example, the doves were actually released by two children on each side of the Pope, and that is a 2 plus 1 Trinity which is a Holy Spirit Trinity. Also, there were three white figures, the two white doves and the Pope in white, another 2 plus 1 Holy Spirit Trinity, so you could say, yes the Pope symbolizes the False Prophet, or you could say the Pope symbolized the last good Pope and that would be Petrus Romanus.

So, in conclusion, I think this was a prophetic event and I believe it clearly shows that in addition to peace about to be taken from the world, we are also about to see the public revelation of the four most important individuals of the End Times, the two lamp stands, Enoch and Elijah, and the two evil individuals, the Antichrist and the False Prophet. And as always, if you would like more information about the end times, please visit my new thirdeaglemedia.com website where I have been unsealing the great prophecies of Daniel. Please don't forget, you cannot understand Daniel as he is printed in your Bibles because those prophecies are sealed up.
