

## Kentucky Derby Prophecy Update

This will be just a very brief update on this past weekend's Kentucky Derby and it is indeed a prophecy. The winning horse symbolizes the Antichrist and his winning time was 2:03.66 seconds, and that 2:03 indicates 2 over 3 . And one of my subscribers pointed out to me that indeed as usual that 2 over 3 indicates the Antichrist because it's the fraction  $2/3$ 's which equals .666, and of course the last place horse, '**Vicar's in Trouble**', signifies the False Prophet, in this case, Pope Francis.

And therefore, the results of the Kentucky Derby simply indicate that the world has been taken over from the first to the last, from the beginning to the end, from the winner to the loser, from the Antichrist to the False Prophet. And I especially want to thank you, my subscribers, for clueing me in on quite a bit of this interpretation.
